## Research Scientist for Paper Surface Chemistry

Kemira Espoo R&D Center is part of Kemira's global R&D and Technology function. The Espoo R&D Center is located at Suomenoja in Espoo and it employs approximately 150 persons. We are now looking for a motivated and creative Research Scientist to our Paper Surface Chemistry team.

You will have responsibility in planning, executing, and reporting projects related mainly to paper coating application development and papermaking chemistry. External R&D projects and contacts with our partners will be also part of your work. You will be reporting to R&D Manager, who coordinates all paper coating projects. You will also be in close operation with pigment processing team, paper printing team, and application team.

You have a university degree in chemistry, chemical engineering or other relevant technical discipline. Knowledge of pigments and coating & printing application development projects is seen as an advantage. You have also project management skills and you interact easily in a team with Sales, Production, Marketing and R&D. You strive for results and have a problem-solving mentality. Your English, both spoken and written, is fluent and you have open mind for challenges, and good attitude for team work. The position is based in Espoo, Finland but it requires traveling.

This position is fixed-term deputizing a family leave.

For further information, please contact Kimmo Huhtala (+358 50 4099 314 on Tuesday 16.2.2010 at 12.00 – 14.00).

Send your application with CV and salary expectations to [careers.espoo@kemira.com](mailto:careers.espoo@kemira.com) by 17.2.2010. Mark your application with "Scientist PSC".
