

Careers at Kemira | We are looking for innovative and talented people who are interested in realizing their full potential. We want team players, who are inspired by working for a company that truly cares about its employees and is regarded as a respected industry leader. At Kemira, our employees are rewarded for their contributions to the success of our business.

Kemira

Manager, Solution and Platform Architecture

We are now looking for a Manager, Solution and Platform architecture to join our Business Applications organization in Helsinki, Finland. We offer an interesting development possibility for you who wish to widen your competence in a challenging international business environment.

You will be responsible for the IT solution and platform architecture and its development. You will manage a small team of Architects and Concept Owners and you will work in close cooperation with other functions and businesses in gathering requirements and providing efficient IT solutions for Kemira. Your duties will include SAP development management and other project management tasks as well as managing approval process for new initiatives and change requests.

You have a suitable tertiary education and at least 5 years of experience in IT and ERP development either as a consultant or an in-house expert. Experience with SAP solutions is an advantage. You are used to working with internal and/or external customers, collecting business requirements, and fitting IT solutions to the requirements. Fluent spoken and written English is necessary for succeeding in the global Kemira IT organization. Knowledge of Finnish is an asset.

For more information, please contact Senior Manager, Business Applications Charlotta Nyström, +358 50 3039410 or charlotta.nystrom@kemira.com.

Please send your application to charlotta.nystrom@kemira.com with your CV and salary request by March 16th 2010.

Kemira in brief | Kemira is a global 2.8 billion euro chemicals company that is focused on serving customers in water-intensive industries. The company offers water quality and quantity management that improves customers' energy, water, and raw material efficiency. Kemira's vision is to be a leading water chemistry company. Kemira operates in 40 countries and has a staff of approximately 9,000 employees. www.kemira.com
