THE MOST IMPORTANT ANNOUNCEMENTS DURING Q3 2024

September 25, 2024: **Kemira updates its long-term financial targets to reflect profitable growth ambitions and structurally higher margin profile**

Kemira's Board of Directors has approved the company's updated long-term financial targets, which will take effect immediately. Kemira's target for average annual organic growth has been changed to over 4% (previously: above-the market growth), and the operative EBITDA margin target has been increased to 18–21% (previously 15–18%). Operative ROCE of over 16% has been added as the new third target.

September 24, 2024: **Kemira & IFF explore broadening of strategic cooperation and announce successful completion of a renewable polymer plant in Finland**

Kemira

As part of their strategic cooperation in providing new renewable alternatives to fossil-based products, Kemira and IFF today announced successful completion of a market-entry scale industrial polymer plant. The unit is capable of producing unique renewable polymers for Kemira's customers and is based on the patented Designed Enzymatic Biomaterial platform technology (DEB™) developed by IFF.

September 23, 2024: **Kemira expands ASA sizing agents capacity in Nanjing, China to respond to increased market demand**

Kemira, the leading ASA (alkenyl succinic anhydride) producer and supplier in Asia-Pacific region has completed a multimillion euro investment to expand the production capacity of ASA sizing agents at its Nanjing site in Jiangsu province in China.

September 18, 2024: **Kemira invests in coagulant capacity in Norway to respond to increased market demand**

Kemira invests in expanding the coagulant capacity in Fredrikstad in Norway to meet the growing market demand and to ensure production reliability in the Nordic region including Norway, Sweden and Finland.

September 3, 2024: **Kemira completes the acquisition of Norit's UK reactivation operations**

Kemira has today completed the acquisition to purchase Norit's UK reactivation business, Purton Carbons Limited. The acquisition was announced on July 1, 2024. This acquisition is the first step for Kemira in entering the activated carbon market for micropollutants removal.

August 16, 2024: **Kemira renews operating model and Management Board to accelerate growth strategy**

Kemira announces changes to its operating model to better meet profitable growth ambitions and moves to three externally reported business units. The planned changes aim to increase customer centricity, strategic focus, speed of delivery and accelerate growth and shareholder value creation.

July 25, 2024: **Kemira expands sodium chlorate capacity in South America to cater for growing pulp and paper market opportunities**

Kemira today announced an investment to expand the capacity of its sodium chlorate manufacturing facility in Ortigueira, Brazil. The investment, a strategic priority for Kemira's Pulp & Paper business, will enable Kemira to respond to the continued growth of the bleached pulp market in South America where Brazil is the leading producer in the region.

July 9, 2024: **Kemira expands capacity in Spain to cater for growing demand in biogas applications and phosphorus removal**

Kemira invests in expanding its ferric chloride capacity in Tarragona, Spain, to enable production of specific biogas products BDP (Biogas Digestion Product). This investment will enable Kemira to respond to the growing market demand for biogas applications in Europe.

July 1, 2024: **Kemira expands its water treatment offering to include activated carbon, acquiring Norit's UK reactivation operations**

Kemira has signed a definitive agreement to purchase Norit's UK reactivation business from Purton Carbons Limited on June 28, 2024. This acquisition is the first step for Kemira in entering the activated carbon market for micropollutants removal.

CAPITAL MARKETS DAY 2024 AND THE KEY THEMES

Kemira's main investor event during the Q3 was the Capital Markets Day, which was held in Helsinki on Thursday, September 26. Kemira provided an update on its strategy and financial targets.

The key messages of the event were:

- Kemira is in excellent shape with structurally higher margins
- We are in a good position to accelerate profitable growth and the new financial targets reflect our ambition to grow while retaining strong margins
- We will execute faster with the new Kemira organization launching in January 2025

The presentations, as well as a recording of the webcast can be found at the event's site: kemira.com/cmd. A press release of the Capital Markets Day can be read [here](#).

INVESTOR ACTIVITIES AND EVENTS DURING Q3 2024

During Q3, Kemira participated in investor conferences in Paris and in London. In connection with the CMD, a site visit to Kemira's Sastamala manufacturing facility was arranged for interested institutional investors and analysts.

Kemira was included in the Euro Stoxx 600 index (the index covers the 600 largest companies in Europe) at the end of June and in the OMX25 index in early August (the OMX25 covers the 25 most traded stocks in Helsinki).
